Dear Sir,

I have read the 9th chapter of the attached paper and I can't qualify that other than legalizing bribery. When I read it the first time, I could not believe it.

Nobody can tell me credibly, that "Goodwill Payments" shall generally achieve improved local well-being and create environmental, economic and community benefits and at the same time effects on deciding planning decisions or on allocations of land for development could be evidently (!) excluded.

So you will have the honour to be mentioned in my
Windenergy-&-Crime-Internet-Site <http://www.windknast.de> (Part II,
sorted by Date)

Very amazed
